- Wozney Town Meeting February 11 Letter.docx (21 KB)

Town Board Members:

Attached, please find a letter that we would like read at the town meeting regarding item 8e (below) as we have a prior commitment and can not attend the meeting on that evening.

Kaw Valley non metallic sand mine for a Wet Processing Plant project  
presentation by

By Ron Rubenzer, Project Engineer and Timothy M. Marko of SEH

Respectfully,  
Neal and Nancee Wozney

Town Meeting (Feb 11, 2013)

To: Town Board of Arcadia

From: Neal and Nancee Wozney

Board Members: It is with great frustration that we write this letter regarding KAW Valley Mines. We are asking that you delay the motion on the Well and Wash Plant (Wet Processing Plant) as we have a prior commitment and can't be at this meeting. We would like to have the opportunity to appear before you and be heard regarding KAW Valley. We have been dealing with KAW Valley since Sept and are concerned with the impact that this mine has had and will have on our home and family. KAW valley has been asked by both the town and county boards to work with us to purchase our property at the present-day and they have refused. We simply don't want to live in a mine or be around any activity related to the mine and wish to relocate before any activity related to the mine begins.

Respectfully,

Neal and Nancee Wozney

Neal and Nancee Wozney
